

Barrhill Community Interest Company

December 2025

Meeting Summary

<https://www.bcic.org.uk/>

In addition to standard financial monitoring, BCIC considered grant requests and discussed the Barrhill Greener Homes project at their December 2025 meeting, the last of the year!

Grants were made to the Barrhill Development Trust to continue to manage assets on behalf of the village, and to purchase essential equipment to allow the Crosswater to reopen.

On Barrhill Greener Homes, directors noted that they would soon expect the first applications to the scheme to be made. You can read more about Barrhill Greener Homes on the BCIC website: <https://www.bcic.org.uk/barrhill-greener-homes>

Directors also received an update on the proportion of winter fuel grants that have been paid this year. Most eligible homes in the community should now have received their payment for this year. Contact Foundation Scotland with any queries about winter fuel: grants@foundationscotland.org.uk

The board of the Barrhill Community Interest Company wishes to thank members for their contributions over the year, and to wish Barrhill a Merry Christmas and a Happy New Year.
